Reviewer’s report

Title: Age-Adjusted Association of Homologous Recombination Genes with Ovarian Cancer Using Clinical Exomes as Controls

Version: 1 Date: 30 Jun 2019

Reviewer: Florentia Fostira

Reviewer's report:

The authors have addressed the points raised.

The only thing I would like to point out, although added in the Methods, is the relatively young age of controls with self-reporting of no genetic etiology. I think that this should be clarified in the paragraph addressing all the limitations of the study.
