Reviewer’s report

Title: A family pedigree of malignancies associated with BRCA1 pathogenic variants: A reflection of the state of art in China

Version: 0 Date: 08 Apr 2019

Reviewer: Caroline KIENTZ

Reviewer's report:

This is an article of limited interest. There are discrepancies between the pedigree and the text (II-5 died or not?, where is II-7 in the pedigree?)

The pedigree (Fig1) is of poor quality and should contain more informations (age, cancer, age of cancer,...)

Level of interest
