Reviewer's report

Title: Could enteral nutrition improve outcome of patients with haematological malignancies undergoing allogeneic haematopoietic stem-cell transplantation? (NEPHA study): study protocol for a randomized controlled trial

Version: 2
Date: 21 February 2015

Reviewer: Andrew Vickers

Reviewer's report:

no comment to authors; they have decided not to respond to my comments.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
