Title: Acupuncture for the treatment of phantom limb pain in lower limb amputees: a randomised feasibility study

Version: 2 Date: 17 March 2015

Reviewer: Cun-Zhi Liu

Reviewer's report:

Discretionary Revisions
I have read this manuscript and interested with this study of “Acupuncture for the treatment of phantom limb pain in lower limb amputees: a randomised feasibility study”. The detailed account of the hypothesis, rationale and methodology of this study have been provided adequately in manuscript. It may be an article of outstanding merit and interest in analgesic field. I think that this protocol is suitable for publication in Trials.

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
