Reviewer’s report

Title: Effects of weight management program on postural stability and neuromuscular function among obese children: study protocol for a randomized controlled trial

Version: 1 Date: 16 March 2015

Reviewer: Bijan Borah

Reviewer’s report:

PLEASE FIND MY MINOR COMMENTS IN THE FOLLOWING (Minor issues not for publication):

Abstract:

1. What does six-month follow-up being conducted mean?
2. You want to say, after the intervention, patients were followed for 6 months with no active intervention.
3. “body weight” is repeated twice

Text:

Study Design (first paragraph):

1. Replace “compareing” by “compare”

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests with the manuscript.
