Reviewer's report

Title: Influence of Morphine on Pharmacokinetics and pharmacodynamics of ticagrelor in patients with acute myocardial InfarctiON (IMPRESSION): study protocol for a randomized controlled trial

Version: 2 Date: 14 March 2015

Reviewer: Bernd Jilma

Reviewer's report:

Minor essential revision
The exact type and route of aspirin administration is of importance, and should be described.
Data from the pilot study should be briefly described in relation for the sample size calculation.
Blood pressure should be recorded, and patients in shock may be an interesting subgroup analysis
IMPRESSION page 9

Level of interest: An article of outstanding merit and interest in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
