Reviewer’s report

Title: A randomized controlled trial comparing effectiveness of internet-supported cognitive behavioral and chronobiological interventions and effect-moderation by insomnia subtype

Version: 1 Date: 28 May 2015

Reviewer: Sean Perrin

Reviewer’s report:

I have no competing interests in relation to this trial and I believe it is suitable for publication in Trials. I would recommend publication in its current form. The copy editor will pick up the occasional typo/formatting issue but otherwise this is an extremely well-written and well-designed trial that is likely to be of significant interest not just to researchers/clinicians in this area but more widely.

1. Will the study design adequately test the hypothesis?
   Yes.

2. Are sufficient details provided to allow replication of the work or comparison with related analyses: if not, what is missing?
   Yes, nothing is missing.

3. Is the planned statistical analysis appropriate?
   Yes.

4. Do the figures appear to be genuine, i.e. without evidence of manipulation?
   Yes.

5. Is the writing acceptable?
   Yes.
