Reviewer’s report

Title: Effect of non-surgical periodontal treatment on glycemic control of patients with diabetes: a meta-analysis of randomized controlled trials

Version: 3
Date: 23 April 2015

Reviewer: Lazaros Tsalikis

Reviewer’s report:

Discretionary Revision

There are many studies comparing non-surgical treatment and adjunctive use of antibiotics with non-surgical treatment alone. The latest groups (usually serving as control) could be included in the meta-analysis.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
