Reviewer's report

Title: Analgesic effect of cathodal transcranial current stimulation over right dorsolateral prefrontal cortex in subjects with muscular temporomandibular disorders: Study protocol for a randomized controlled trial

Version: 2
Date: 7 July 2015

Reviewer: Anne-Marie Glenny

Reviewer's report:

The authors appear to have addressed the comments previously raised.

Discretionary revision: It may read more clearly if the section under 'Control Group' (heading can be deleted) is moved up follow on from the sentence starting 'Each subject will be tested to determine the effect..." (page 4). Then list the three intervention groups A-C.

Replace the term 'subjects' with 'participants'.

Level of interest: An article whose findings are important to those with closely related research interests.

Quality of written English: Acceptable.

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.

Declaration of competing interests:

No competing interests.
