Reviewer’s report

Title: The effectiveness of the biannual application of silver nitrate solution followed by sodium fluoride varnish in arresting early childhood caries in preschool children: A 30-month, randomised, double-blind, non-inferiority trial.

Version: 2 Date: 11 September 2015

Reviewer: Svetlana Tikhonova

Reviewer’s report:

I am satisfied with all the answers and changes in the manuscript that were done by the authors.

Just one comment: in the abstract in the study objectives the word 'efficacy' should be changed to 'effectiveness'.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
