Reviewer's report

Title: AuTop trial: Screen-and-treat program by Point-of-care of Atopobium vaginae and Gardnerella vaginalis in preventing preterm birth: protocol study for a randomized controlled trial

Version: 2 Date: 16 September 2015

Reviewer: antonio cianci

Reviewer's report:

The study is complete and it has answered to almost all our major and minor revisions.
The complete analysis of the vaginal ecosystem is still not investigated but it could be a suggestion for further studies.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
