Reviewer’s report

Title: Description of complex interventions: analysis of changes in reporting in randomised trials since 2002

Version: 1 Date: 21 Dec 2017

Reviewer: Lee Aymar NDOUNGA DIAKOU

Reviewer’s report:

The submitted manuscript has significantly improved following the author's revisions. The comments have been successfully addressed, the responses justified, and the article's text modified accordingly.

However, I do provide comments and recommendations for the author as follows:

1) Methods: Data source -- Please mention your resource data sources (re-running of search terms)

2) Flow Diagram -- The authors should state precisely the reasons for excluding reports and their related number each time.

3) Results -- According to Table 1, the description of the comparator was not reported in 40 percent of studies in time 1 and 34 percent in time 2. Please modify the text accordingly.

4) Page 10, line 55: Put the 95% confidence interval in brackets.

Level of interest
Please indicate how interesting you found the manuscript:

An article of importance in its field

Quality of written English
Please indicate the quality of language in the manuscript:

Acceptable

Quality of figures
All images and figures within the manuscript should be genuine i.e. without evidence of manipulation. No specific feature within an image may be enhanced, obscured, moved, removed, or introduced. If you have concerns about the veracity of the figures you should choose the first option below.
**Statistical review**
Is it essential that this manuscript is seen by an expert statistician? If so, please give your reasons in your report.

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interest's below.
