Title: Promoting physical activity among community groups of older women in socio-economically disadvantaged areas: randomised feasibility study

Version: 1 Date: 11 Jan 2019

Reviewer: Claire Pentecost

Reviewer’s report:

I am pleased to say the authors have addressed all the comments meticulously and now I feel the paper is much clearer and appropriately described and set out for a feasibility study. I therefore recommend this paper is published with only one further comment:

Figure 2 still has 'consort' in the title, this should be changed to just read 'Flow diagram of the intervention timeline' as there is now a supplementary file 'consort diagram'.

I congratulate the authors on this work and hope that the proposed pilot study proceeds.
