Reviewer's report

Title: Leucine-enriched essential amino acid supplementation in mechanically ventilated trauma patients – a feasibility study

Version: 0 Date: 02 Jun 2019

Reviewer: Israel Maia

Reviewer's report:

Congratulations for your work. Some comments:

1. Abstract: well described and structured

2. Title: very informative and clear

3. Key words: Mechanical ventilation and trauma are missing. Please add it.

4. Background: Short, however with enough information.

5. Objectives: clear and consistent

6. Methods: Better description of the intervention is lacking. There is more information about this in the abstract than in the body of the study. Outcomes very well described. Statistical methods clear.

7. Results: text is concise, however with enough information which is clear in the tables.

8. Discussion: very well structured. No change needed

9. Conclusion: consistent with findings
Level of interest
Please indicate how interesting you found the manuscript:

An article of importance in its field
