Title: The effect of Spinal Manipulative Therapy on Heart Rate Variability and pain in patients with chronic neck pain: A Randomized Controlled trial

Version: 2 Date: 14 Aug 2019

Reviewer: David William Evans

Reviewer's report:

The organisation of the text is now acceptable and the content is sufficient that the study could be reproduced.

I still have some methodological concerns regarding the conflation of multiple interventions in an explanatory study, but readers and reviewers can judge this for themselves,
