Reviewer's report

Title: Biomechanical symmetry in elite rugby union players during dynamic tasks: an investigation using discrete and continuous data analysis techniques

Version: 3 Date: 7 April 2015

Reviewer: Kenneth P Clark

Reviewer's report:

The authors revisions have significantly strengthened the manuscript and it is now a substantially stronger investigation.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

'I declare that I have no competing interests'
