Reviewer’s report

Title: Are there two forms of isometric muscle action? Results of the experimental study support a distinction between a holding and a pushing isometric muscle function

Version: 0 Date: 25 Feb 2017

Reviewer: Sajad Bagherian

Reviewer’s report:

Abstract:

Page 2, line 2-11: Author mix background and method together mistakenly. There is no information about the purpose of the study and also about HIMA and PIMA that what they stand for?

Page 2, line 12-20: the result section must be rewrite. It vague and confusing.

Page 2, line 15: please change (p=.000) to (p=.001).

Introduction:

Page 3, line 38-40: "investigators in [4] suggest" change the sentence and provide information about "4". Same for line 65: "by 9".

Page 3, line 41: what HIMA stand for?

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Unable to assess

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I recommend additional statistical review
