Reviewer's report

Title: THE FIFA 11+ INJURY PREVENTION PROGRAM IN SOCCER PLAYERS: A SYSTEMATIC REVIEW

Version: 0 Date: 15 Mar 2017

Reviewer: Tania Spiteri

Reviewer's report:

Overall I think this is an interesting systemic review investigating the effectiveness of an injury prevention program to reduce injury incidence in soccer athletes. While the information is clearly presented in the article there are many grammatical errors and issues with sentence structure that need to be addressed.

Pg 12, Line 7: Instead of saying or not, replace this with modifiable and non-modifiable characteristics that may be responsible for injury incidence leading to the implementation of injury prevention programs including the FIFA11+

As this is the first incidence of the FIFA11+ being mentioned in-text, you need to write this out in full.

Pg 12, Line 18: Rewording is needed here. Perhaps reword to "reduced injury incidence by 30% in soccer players..."

Pg 12, Line 21: Remove the word "the"

Pg 12, Line 24-25: Reword this sentence for correct flow and grammar.

* This paper needs to be re-read by all authors to fix editing of grammar, and sentence structure.

*Check references. Some of the end text references are written in all capital letters.
Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics

Quality of written English
