Title: THE FIFA 11+ INJURY PREVENTION PROGRAM IN SOCCER PLAYERS: A SYSTEMATIC REVIEW

Version: 1 Date: 25 Aug 2017

Reviewer: Jodie Wilkie

Reviewer's report:

Some changes are still required and some of my previous comments were not addressed or changed and have been included again in this review.

Abstract: on line 26/27, the closing bracket should be after p=0.01 not before it.

Results:

In table 2 under the comparisons you have 'conventional or without heating program'. What do mean by heating? Do you mean warm-up? You also need to format this table better. In the second column some text is centred and some is aligned left.

Figure 2: in your description should it be 'warming programs'? Or perhaps or 'warm-up programs' or 'injury prevention programs'? You also say 'Analysis of the seven independent samples' but only six studies were analysed.

On page 14 you refer to Appendix 1 and 2. There is no appendices attached to this paper and also there should not be appendices in a paper. Can you please remove or clarify what you are referring to.

Discussion:

As previously suggested in the first review, you have paragraphs which are only one or two sentences long in this section. Please check your writing and see if some of these paragraphs are covering a similar topic/discussion point and can be joined together or the writing improved. For example:
* On page 14 join the paragraph on line 52 starting with 'Soligard et al…' to the previous paragraph.

* On page 15 join the paragraph on line 17 starting with 'Silvers-Granelli et al ...' to the previous paragraph and also join the paragraph on line 25 (page 15) starting with 'Finally, Soligard et al…' to the this previous paragraph.

Try not to use 'we' in your writing.
