Reviewer's report
Title: Effects of nine weeks isokinetic training on power, golf kinematics, and driver performance in pre-elite golfers.

Version: 0 Date: 03 Jun 2017

Reviewer: Sajad Bagherian

Reviewer's report:
General Comments: The purpose of this manuscript was to whether isokinetic rotational training could improve driver performance and swing kinematic variables amongst elite golfers. Although the paper may be of interest to the readership of the journal, but it has been written in inappropriate formant. For example the introduction has written very wide and also the methods and results have written in misunderstanding format. I thinks it is not fine for publication with this writing format.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
No

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.
No

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.
No

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
