Title: Influence of typical handball characteristics on upper body posture and postural control in male handball players

Version: 1 Date: 28 Oct 2019

Reviewer: roland van den Tillaar

Reviewer's report:

I see in the comments that the authors have changed the table, but I could not see that they have changed the rest of the manuscript. I still think that there is not much new with the findings of the present study even if they have used expensive equipment. The impact of the findings are low to my opinion. Sorry

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.
