Does the case report have explanatory value?: Yes

Does the case report have diagnostic value?: Yes

Will the case report make a difference to clinical practice?: Yes

Is the anonymity of the patient protected?: Yes

Comments to authors:

please check your spelling and grammar. Would also consider adding a table including previously diagnosed cases that may have been reported in the literature and see if there is commonality in the presentation and etiology of this case

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Declaration of competing interests:
