Reviewer's report

Title: Atypical course in severe catatonic schizophrenia in a cannabis dependent male adolescent: a case report

Version: 3 Date: 15 July 2015

Reviewer: Huseyin Bayazit

Which of the following best describes what type of case report this is?: None

Do you believe the case report is authentic?:

It's a good sample of long term follow up psychotic patient.

Do you have any ethical concerns?:

No

Is the Abstract representative of the case presented?:

Yes

Does the Introduction explain the relevance of the case to the medical literature?:

Yes

Does the article report relevant patient information?: Yes

Does the article report relevant physical examination findings?: Yes

Does the article report important dates and times in this case?: Yes

Does the article report the diagnostic assessments?: Yes

Does the article report the types of intervention?: Yes

Does the article report a summary of the clinical course of all follow-up visits?: Yes

Is the interpretation (discussion and conclusion) well balanced and supported by the case presented?:

Yes it's but it's still too long for a case report.
Does the case represent a useful contribution to the medical literature?:

It may help us to understand a different course of schizophrenia

Was written informed consent to publish this case obtained?: Yes

Is the anonymity of the patient protected?:

yes

Additional comments to authors?:

It's a good follow-up and interesting case. Although it's difficult to summarize this kind of manuscript, shorter one is the best for people
