Reviewer’s report

Title: Leptospirosis infection in a homeless patient in December in Tokyo

Version: 4  Date: 18 May 2015

Reviewer: Mahmoud Khattab

Which of the following best describes what type of case report this is?: An unexpected event in the course of observing or treating a patient

Do you believe the case report is authentic?:

Yes

Do you have any ethical concerns?:

Yes

Additional comments to authors?:

1-you have to present your data concerned with lab. results in reference to normal values at your laboratory.
2-section of discussion lacks comparing your data with others especially those cases reported from Japan.
3- conclusion section should be restricted your conclusion from this case study.

Level of interest: An article of importance in its field
