Reviewer’s report

Title: Thromboelastometry guided blood transfusion: an alternative and efficient approach to manage acute fatty liver of pregnancy. A case report.

Version: 3 Date: 15 July 2015

Reviewer: Cristina Solomon

Which of the following best describes what type of case report this is?: Presentations, diagnoses and/or management of new and emerging diseases

Do you believe the case report is authentic?: Yes

Do you have any ethical concerns?: No

Is the Abstract representative of the case presented?: Yes, but please make following amendment: "prothrombin complex concentrate and fibrinogen concentrate were administered..." should be replaced with "fibrinogen concentrate and prothrombin complex concentrate were administered..."

Does the Introduction explain the relevance of the case to the medical literature?: Yes

Does the article report relevant patient information?: Yes

Does the article report relevant physical examination findings?: Yes

Does the article report important dates and times in this case?: Yes

Does the article report the diagnostic assessments?: Yes

Does the article report the types of intervention?: Yes

Does the article report a summary of the clinical course of all follow-up visits?: Yes

Is the interpretation (discussion and conclusion) well balanced and
supported by the case presented?:
yes

Does the case represent a useful contribution to the medical literature?:
yes

Was written informed consent to publish this case obtained?: Yes

Is the anonymity of the patient protected?:
yes

Additional comments to authors?:
The authors did a very thorough review of the manuscript.

Only 1 minor comment, to make sure this correction is not overlooked: in the Abstract, please replace "prothrombin complex concentrate and fibrinogen concentrate were administered..." with "fibrinogen concentrate and prothrombin complex concentrate were administered...". This correction is necessary because it reflects the pathophysiology of the severe coagulation defect.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Declaration of competing interests:
In agreement with previous review.
