Reviewer’s report

Title: Enterogenous cyst of pediatric testis: A case report

Version: 0 Date: 03 May 2017

Reviewer: Antonis Mykonou

Reviewer’s report:

I would like to point some issues that need to be addressed

- There are two abstracts but only one full case presentation, so I will comment only the first one

- Grammatical errors, such as "enterogeneous", should be fixed (enterogenous is the correct)

- The presentation lacks of coherence

- The consent of the patient should not be placed in the presentation of the case, but rather in the end of the discussion

- The consent was taken from the patient or from the parents?

- Findings of physical examination are important, need to be mentioned

- Lab values must be reported in numbers, not "nearly"

- I imagine you checked a-FP but wrote ALP. Need to be corrected

- Which was the incision area?

- Was the mass well circumscribed during the detachment from the surrounding tissues?
