Version: 1 Date: 04 Feb 2017

Reviewer's report:

Dear authors

Your article adds some lightening to the long term follow-up of extramedulary plasmacytoma literature. However, it needs some revisions before being published in the journal.

1. The English language should be edited by a native English speaker.

2. Would you please define the dimensions of the masses seen in patients’ nasal cavities.

3. What were your reasonings for planning only radiotherapy in the treatment of these tumors.

4. You used several doses of radiotherapy for treating case 2. Why did you prefer a huge amount of radiation before undergoing chemotherapy for multiple recurrence in case 2. Did you meet any complication after this treatment protocol.

Best Regards.
