Title: Metastasis in the mandibular condyle: A case report

Version: 0 Date: 01 Aug 2017

Reviewer: Ahmad Abdelkarim

Reviewer's report:

Please replace "X-rays" with radiographs.

The manuscript can benefit from professional editing, there are grammatical errors and issues with the writing.

There seems to be two different abstracts, one is short, and another is long.

It does not appear that the referencing style matches the journal's style.

For figures 3, please include 2 captions for figure A and B, and their respective views (coronal and sagittal).

Figure 4 captions including MRI images should include more description about the image (T1 and T2 weighted?). Perhaps you can zoom in to the TMJ area only to show the disk displacement (if present) and show the condyle more accurately.

Figure 1 is included at the end, please re-upload the figures in correct sequence.
