Reviewer’s report

Title: Reversal of end-stage heart failure in juvenile haemochromatosis with iron chelation therapy: a case report

Version: 0 Date: 27 Apr 2017

Reviewer: Konrad Brockmeier

Reviewer’s report:

The authors present a very unusual but important case.

At the first glance I had problems to believe...

After carefully reading the article, studying the provided material, seeing the completeness of the diagnostic steps I am totally convinced that this is a rare case of JH and reversible cardiomyopathy after appropriate treatment (with confirmatory genetic analysis) that should be published.
