Reviewer's report

Title: The role of T2* Gradient Echo in the diagnosis of tumefactive intrahepatic extramedullary hematopoiesis in myelodysplastic syndrome and diffuse hepatic iron-overload: A case report and literature review.

Version: 1 Date: 05 Oct 2017

Reviewer: aisha alosail

Reviewer's report:

Greeting

Thanks for allowing me to review this case report

1. The background was really interesting and the references were chosen correctly.
2. Was the patient smoker? Any positive family history?
3. In the discussion part, it will be much better if you compare it with other case report.

Wish you the best for your article.

Regards
