Title: THE USE OF LATIN TERMINOLOGY IN MEDICAL CASE REPORTS: QUANTITATIVE, STRUCTURAL AND THEMATIC ANALYSIS

Version: 1 Date: 09 Nov 2017

Reviewer: Sherif Shehata

Reviewer's report:

Thanks for the clear effort done by authors to improve the manuscript

Only two small points are in need for further clarification:

1) Still the implementation plan as they mentioned in discussion is not clear and not documented

2) How they respond to the current replacement of Latin by English terminology making the English the universal medical language, thus any Latin extra curricular modules will be cost wise or not for the implementing medical institution.
