Title: THE USE OF LATIN TERMINOLOGY IN MEDICAL CASE REPORTS: QUANTITATIVE, STRUCTURAL AND THEMATIC ANALYSIS

Version: 2 Date: 22 Dec 2017

Reviewer: Sherif Shehata

Reviewer's report:

The authors had done an excellent effort to clarify the issue of their manuscript

Only one point, the article topic may be of importance to limited countries to knew Latin but even in Ukraine I think that more English language courses or Curriculum modules to students studied in their own language despite all modern medical publications, studies, research and conferences in English ? not convincing to me that it will benefit all medical students from European countries
