Reviewer’s report

Title: Successful treatment of primary bone marrow Hodgkin lymphoma with brentuximab vedotin: a case report and review of published reports

Version: 0 Date: 08 Mar 2018

Reviewer: El Bairi Khalid

Reviewer's report:

This is a nicely written case report than can add a therapeutic option for patients with primary bone marrow Hodgkin lymphoma. However, histopathological figures are drawn with very poor quality and cannot be reviewed. Please add them as a TIFF image.
