Reviewer’s report

Title: Menetrier's Disease Presenting as Recurrent Unprovoked Venous Thrombosis

Version: 0 Date: 24 Sep 2018

Reviewer: Alauldeen Zubair

Reviewer's report:

Dear reviewer,

1) Add photos of endoscopy to enhance the educational value of the paper.
2) Add photos of histopathology.
3) Some important screening tests like homocystein, prothrombin mutation and anti-cardiolipin are missing. Explain this.
4) The discussion is very deficient regarding the hematological aspect which is a main part of the case. You need to focus on this and explain how the disease predisposes to thrombosis. Add reference supporting your explanation.

Level of interest

Please indicate how interesting you found the manuscript:

An article of importance in its field

Quality of written English

Please indicate the quality of language in the manuscript:

Declaration of competing interests

Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?
5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
