Title: Cold Beverage Induced Vasovagal Syncope: An Unusual Case Report of a Healthy Young Adult Male

Version: 0 Date: 27 Aug 2019

Reviewer: Sakshi Gandotra

Reviewer's report:

1. Do you believe the case report is authentic?
   Yes/No
   yes

2. Do you have any ethical concerns? Please consider if local Institutional Review Board approval or ethical approval was obtained (if appropriate) and if the patient (or their parent or guardian in the case of children under 18) gave written, informed consent to publish this case and any accompanying images. A statement to this effect should appear in the manuscript.
   Comments:
   no

3. Does the Introduction explain the relevance of the case to the medical literature?
   Yes/No
   yes

4. Does the article report the following information? Where information is missing, please specify.
   a. The relevant patient information, including:
      - De-identified demographic information (age, gender, ethnicity)
      - Main symptoms of the patient
      - Medical, family and psychosocial history
      - Relevant past interventions and their outcomes
      yes

   b. The relevant physical examination findings
      yes

   c. Important dates and times in this case (if appropriate, organized as a timeline via a figure or table); if specific dates could lead to patient identification, consider including time relevant to initial presentation, i.e. initial presentation at T = 0, follow up at T = 1 month.
      yes

   d. Diagnostic assessments, including:
      - Diagnostic methods
      - Challenges (e.g., financial, language/cultural)
      - Reasoning and prognostic characteristics (e.g., staging), where applicable
e. Types and mechanism of intervention
yes

f. A summary of the clinical course of all follow-up visits
yes

Comments:
It would make the report more credible if the author included the ECG findings of the patient as well. A Holter monitoring is warranted in this case and the author has made no mention of this.

5. Is the interpretation (discussion and conclusion) well balanced and supported by the case presented?
Comments:
no

6. Is the anonymity of the patient protected? Please consider any identifying information in images such as facial features or nametags, whether the patient is named etc. If not, please detail below.
Yes/No
yes

7. Is the Abstract representative of the case presented?
Comments:
yes

8. Does the case represent a useful contribution to the medical literature?
Comments:
not very useful. Moreover, the author has not evaluated the cardiovascular system properly and, therefore, an important differential diagnosis may have been missed.

9. Additional comments for the author(s)?
please mention the cardiovascular investigations done on the patient.
