Reviewer's report:

Dear authors,

Many thanks for your time in considering my review comments; I’m happy that you’ve addressed everything. This really is a fantastic piece of work, and I think the evidence you have produced has important implications for the field. I really like your re-write of the discussion in particular, which highlights some interesting findings that I hope will encourage debate around the way evidence is used to inform clinical practice.

Well done on this piece of work.
