Title: Neonatal mortality in Ethiopia: A protocol for systematic review and Meta-analysis

Version: 0 Date: 16 Dec 2018

Reviewer: Mohamed Elsheemy

Reviewer's report:

The paper describes an outline of an original systematic review. What I could not identify is the time frame of the search strategy. Would the authors look at all publications regardless of the time it was published? In the heterogeneity analysis would the age of the publication be considered?
