Title: A scoping review of mental health prevention and intervention initiatives for infants and preschoolers at-risk for socio-emotional difficulties

Version: 0 Date: 09 Feb 2019

Reviewer: Charlotte Connor

Reviewer's report:

An excellent and timely paper. It is well written and clearly explains the review process for the reader. It may be useful (if such information is available) to include a little more information regarding whether any interventions/prevention strategies were implemented online or in digital format, as this is increasingly becoming a popular way of delivering interventions and may be more useful/appropriate ways of engaging with families.
