Title: The evaluation of Dual-Task conditions on static postural control in older adults: a systematic review and meta-analysis protocol

Version: 1 Date: 25 Jun 2019

Reviewer: Shaoqing Ge

Reviewer's report:

Thank you for your effort on revising the paper. The quality of the paper has been substantially improved. However, I find the current draft with all these unnecessary edits very hard to read. The authors should have had the paper more carefully edited before having it submitted to the journal. Also, the author's response to the reviewer's comments was not quite clearly marked, it is hard to locate the corresponding response to the reviewer's comments.

Overall, nice job but still many improvements need to be made.
