Reviewer’s report

Title: A protocol for systematic review of the effectiveness of Plantago major in accelerating wound-healing in animal models

Version: 0 Date: 16 May 2019

Reviewer: Angel Romero-Collado

Reviewer's report:

I have a few comments to author(s) that can help to improve their manuscript:

Please, use MeSH terms. Plantago Major it's not a MeSH term, and 'wounds injuries' either. The background needs a little more development. Is there any study that deals with the effect of P Major on the wounds? You can use it.

Why will you use spanish and portuguese terms in BVS database if you only will select english studies?

Level of interest
Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English
Please indicate the quality of language in the manuscript:
