Title: Performance management methods and practices among Nurses in Primary Health Care Settings: A systematic scoping review protocol

Version: 4 Date: 29 Nov 2019

Reviewer's report:

Thank for having addressed the previous comments. My suggestion is to provide comprehensive conceptual clarity/definitions related to your PCC framework. For example, you could add definition of your population (nurses), concepts (integrate your definition of performance management here), and context (primary health care) in the Table 1. As reader, we must have quick overview of your concepts of interest. The table 1 is a good starting point, but I recommend to complete it. In my opinion, the paper has been improved over the revision rounds.
