Title: Psychotropic medication non-adherence and its associated factors among patients with major psychiatric disorders: A systematic review and meta-analysis

Version: 1 Date: 01 May 2019

Reviewer's report:

The authors satisfactorily addressed my previous comments. I recommend publication of this manuscript if the following minor comments are addressed. On the result section, please interpret the results of the publication bias in few lines. At the current form, there is no description other than the mere presence of the funnel plots. The captions of the funnel plots written below the plots(figure 2-3, 2-4, 2-5, 2-6) are not clear. Please check the reference section. The doi, or volume and issue numbers most of the references are written in Arabic alphabets. I don't know why this happened but I don't believe this is introduced by my pdf viewer. Check your referencing tool.
