Reviewer’s report

Title: Determinants of prenatal anemia in Ethiopia, 2016

Version: 1 Date: 19 Apr 2017

Reviewer: Olivier Bruyère

Reviewer's report:

The objective of this study was to investigate the prevalence and associated factors of anaemia among pregnant women attending ANC clinics. The reviewer has the following comments:

1. In the title, please delete "West".

2. The manuscript must be reviewed by a native English speaker.

3. It is not clear how participants were recruited for this study. Was it during a planned visit? Was it a special visit for the present study?

4. Please provide the total number of pregnant mothers attending ANC in the previous year.

5. The number of months since the start of the pregnancy must be taken into account in the analysis.

6. Some of the characteristics reported in tables 1, 2 and 3 are not taken into account in table 4. The reasons for that are not clear.
