Reviewer’s report

Title: Antenatal Care and Mothers’ Education Improved Iron-Folic Acid Adherence at Denbiya District Health Centers, Northwest Ethiopia: Using pills count method.

Version: 1 Date: 03 May 2019

Reviewer: A.D. Gebremariam

Reviewer’s report:

Dear Authors

I have gone through you manuscript with full passion and found it well articulated. I don't have substantial comments. There are variables which are missed in your study and you put them under limitation of the study. saying this I do have questions

1. How did you explain the negative association of husband education with adherence to iron with folic acid supplementation.

2. Why didn't test the association of gastrointestinal discomfort (side effect) and forgetfulness with adherence to iron with folic acid supplementation.

Level of interest
Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English
Please indicate the quality of language in the manuscript:
