Title: Individual and Community Level Associates of Contraceptive Use in Ethiopia: A Multilevel Mixed Effects Analysis

Version: 0 Date: 21 Aug 2019

Reviewer: Kwamena Sekyi Dickson

Reviewer's report:

The manuscript was well written. The methods and the analysis were well done. Discussions and conclusions were drawn from the findings.

The only issue I have is that the logistic regression done, it would be great to add the conditions behind the use of the regression model and why you chose to use that model and not another.
