Reviewer’s report

Title: The Influence of Ergonomic Breastfeeding Training on Some Health Parameters in Infants and Mothers: A Randomized Controlled Trial

Version: 0 Date: 07 Jun 2019

Reviewer: Olivier Bruyère

Reviewer's report:

The objective of this study was to assess the influence of ergonomic breast-feeding training in infants and mothers. The reviewers of following comments:

1) When the authors discuss the first and second aims of this study, this is not clear if it refers to primary and secondary objectives.

2) The methodology and the results must be reported according to the first and second aims of this study.

3) The title must include that this is a randomized controlled trial.

4) This is not clear if the participants or the investigators were blinded in this study. This point must be exhaustively discussed in the methodology and in the results section.

5) In table 1, the columns x2 and df could be deleted.

6) In table 1, please also include age, BMI and other clinical characteristics of the subjects.

7) In table 2 and table 3, please avoid unnecessary abbreviation.

8) Regarding the statistical analyses used by the authors, it must be pointed out that a lot of different statistical analyses are performed (for example see table 2) and that they could always have, by chance, some significant results. Consequently, the statistical analyses must be adjusted according to the number of statistical analyses performed in this study (i.e. the value of the significant p-value must be different).

9) Please note that all tables must be comprehensible without reading the text. Currently, this is not at all the case.

10) In table 5, please include the possible range of the VAS. Still in this table, we do not need the information that 0.02 and 0.001 are <0.05. By the way, this is also true for all other tables.
**Level of interest**
Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

**Quality of written English**
Please indicate the quality of language in the manuscript:

Acceptable

**Declaration of competing interests**
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
