Reviewer’s report:

The authors have done a nice job of addressing all the comments. I think the paper makes an interesting addition to the literature.

My only additional comment is for the authors to review the manuscript for consistency of citation style (e.g., on p. 3 they switch between numbered references in [brackets] and APA) and for any typos (e.g., a missing ‘ on p. 10, line 41).

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
