Yes - the author's interpretation is reasonable

OVERALL MANUSCRIPT POTENTIAL - Has the author addressed your concerns sufficiently for you to now recommend the work as a technically sound contribution? If not, can further revisions be made to make the work technically sound?
Yes - current version is technically sound

PEER REVIEWER COMMENTS:

GENERAL COMMENTS: The authors have addressed my concerns directly in their responses and in the manuscript. Their changes within the manuscript, particularly to my concerns about comparison groups, use causative language and practice implications, have been appropriately addressed. The authors have addressed each of my concerns in a thoughtful manner. The revised manuscript is much improved as the authors have thoughtfully and thoroughly revised the manuscript based on the two reviews. The methods appear to have been appropriately carried out and the results show significant
gender differences on the variables of interest. It is, in my opinion, a quality article on an important topic.

ADDITIONAL REQUESTS/SUGGESTIONS:
In my previous review I suggested the authors utilize a non-indigenous comparison group. While the authors have not incorporated this suggestion, they have addressed the reason why in the manuscript and their response to my critique in their letter and the manuscript was reasonable. In short, all of my concerns have been addressed.

Are the methods appropriate and well described?
If not, please specify what is required in your comments to the authors.

Yes

Does the work include the necessary controls?
If not, please specify which controls are required in your comments to the authors.

Yes

Are the conclusions drawn adequately supported by the data shown?
If not, please explain in your comments to the authors.

Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review?
If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.

I am able to assess the statistics
