Version: 3 Date: 11 Sep 2019

Reviewer: Heather Stuart

Reviewer's report:

Thank you for the opportunity to review this interesting manuscript. I found the paper easy to read, methodically laid out and comprehensive. The authors make a strong argument for the need for longitudinal studies and their results do fill an important gap. This paper will make an important contribution to the field and should be of high interest to the journal's readership.
