Reviewer’s report

Title: The CogBIAS longitudinal study of adolescence: Cohort profile and stability and change in measures across three waves

Version: 1 Date: 27 Sep 2019

Reviewer: Sara Haga

Reviewer's report:
I've carefully read the authors' responses to the reviewers and the revised version of the manuscript. I'm grateful for the very clear, thorough responses and for the authors' care in making it super easy to identify how they dealt with each one of the raised issues. I'm satisfied with how these issues were addressed and agree with the authors that this improved version is publishable at BMC Psychology.

Are the methods appropriate and well described? If not, please specify what is required in your comments to the authors.
Yes

Does the work include the necessary controls? If not, please specify which controls are required in your comments to the authors.
Yes

Are the conclusions drawn adequately supported by the data shown? If not, please explain in your comments to the authors.
Yes

Are you able to assess any statistics in the manuscript or would you recommend an additional statistical review? If an additional statistical review is recommended, please specify what aspects require further assessment in your comments to the editors.
I am able to assess the statistics
